

Roman Vasylenko

Senior QA Automation Engineer · 8 years · Selenium + Playwright + API · Dnipro → remote

r.vasylenko@example.com · github.com/rvasylenko

Summary

QA інженер з 8 років досвіду, з них 6 — full automation. Побудував test automation з нуля для 3 проєктів (Java/TestNG, Python/pytest, TypeScript/Playwright). Strong у API testing, CI integration, test pyramid design. Team-lead для 4 QAs у поточному проєкті.

Experience

QA Lead / Senior SDET — Ajax Systems (security IoT, B2C+B2B)

Nov 2022 — Present · Kyiv (remote) · PRODUCTION

- Test automation для mobile + web admin console + REST API. Stack: Playwright (TS) + pytest + Appium.
- CI integration на GitLab CI — full E2E suite runs in 28 min on 8 parallel agents. Reduced from 1.5h before parallelization.
- Lead для 4 QA engineers — mentoring, code review, hiring (interviewed 30+, hired 3).
- Driving test pyramid migration: shifted ratio from 70% E2E / 25% integration / 5% unit, до 25/45/30 over 18 months.

Senior SDET — EPAM (client: large US healthcare insurer)

Mar 2020 — Oct 2022 · Dnipro (hybrid) · PRODUCTION

- API + UI automation на Java 11 + RestAssured + Selenium 4 + TestNG + Maven.
- Performance testing з JMeter + Grafana dashboards (baseline + SLA monitoring).
- Migration з Selenium 3 → 4 — refactored ~600 tests; introduced Page Object Model where missing.

QA Engineer (mid) — SoftServe (outsource — fintech client)

Aug 2018 — Feb 2020 · Lviv · PRODUCTION

- Manual + automation mix (60/40). Built initial automation framework на Selenium WebDriver + Java + Cucumber.
- API testing — Postman → Newman (CI), JIRA + Zephyr for test management.

Junior QA Manual — Luxoft

Jun 2017 — Jul 2018 · Dnipro · PRODUCTION

- First QA role — manual testing of trading platform desktop app.

QA Intern — Datrics

Feb 2017 — Apr 2017 · Dnipro · INTERNSHIP

- Internship — exploratory testing + bug reporting on data-science platform MVP.

Skills

Automation frameworks: Playwright (TS, daily), Selenium WebDriver (Java, 5+ years), Appium (mobile), Cypress (basic, evaluated for project), Cucumber (BDD).

Languages: Java (advanced — daily 5 years), TypeScript (intermediate), Python (intermediate — pytest, data processing), Groovy (Jenkins pipelines), basic Bash.

API testing: RestAssured (Java), Postman, Newman, pytest-requests, contract testing (Pact basics).

CI/CD: GitLab CI (advanced), Jenkins (mature), GitHub Actions, Docker (containerized test envs).

Performance: JMeter (5 projects), Gatling (basic), Grafana dashboards for monitoring.

Test management: Jira + Zephyr Scale, TestRail, Allure reporting, TestNG/JUnit/pytest reports.

Methodology: Test pyramid design, shift-left QA, BDD, exploratory testing, risk-based test prioritization.

DBs / tools: SQL (PostgreSQL, MySQL — daily for test data setup), MongoDB (basic), Kafka consumer scripts for event verification, Wiremock for service virtualization.

Education

Dnipro University of Technology (former NMU)

Master's in Computer Engineering · 2015-2017 · Completed

Dnipro University of Technology

Bachelor's in Computer Engineering · 2011-2015 · Completed

Certifications: ISTQB Advanced Test Automation Engineer (2021), ISTQB Foundation (2017). AWS Cloud Practitioner (2023).
