

Kateryna Lysenko

Registered Nurse (RN) · 1.5 years · Post-Surgical Care

Kyiv, Ukraine · willing to relocate within UA · k.lysenko@example.com · linkedin.com/in/klysenko

Summary

Registered Nurse з 1.5 роками clinical experience у post-surgical care unit Kyiv-Pechersk Medical Center. Завершила BSN у Богомольця, certified у BLS + ACLS + IV Therapy. Focus areas — post-operative monitoring, IV management, patient education, wound care. Шукаю transition до ICU rotation для глибшої критичної допомоги practice.

Clinical Experience

Registered Nurse, Post-Surgical Unit — Kyiv-Pechersk Medical Center

Jan 2024 — Present · Kyiv · PRODUCTION

24-bed post-surgical ward (general + orthopedic + thoracic surgery). Average 18–22 patients on shift. 5 RNs per shift + charge nurse.

- Direct patient care for 4–6 patients per 12-hour shift — vital signs monitoring (q2h), wound assessment, drain output tracking, IV medication administration (analgesics, antibiotics, anticoagulants).
- Coordinated with surgical team on 3 daily multidisciplinary rounds; documented patient progress in MIS-Health EHR.
- Performed routine procedures: IV cannulation (peripheral, 200+ procedures), Foley catheter insertion, NG tube management, wound dressing changes.
- Trained 2 nursing students during their clinical rotation.
- Participated в monthly QI projects — reduced average dressing change time from 18 min to 11 min through new protocol.

Nursing Student (Clinical Rotations) — Kyiv City Maternity Hospital #2

Sep 2022 — Jun 2023 · Kyiv · INTERNSHIP

Clinical rotations as final-year BSN student. Total 720 supervised clinical hours across obstetrics, neonatal, and post-partum departments.

- Rotated через obstetrics (labor + delivery), neonatal nursery, post-partum departments.
- Assisted senior RNs з newborn care, breastfeeding education, post-partum monitoring.

Education

Bogomolets National Medical University

Bachelor of Science in Nursing (BSN) · 2019–2023 · Completed.

Дипломна робота: "Effect of structured pre-operative anxiety counseling on post-op recovery time" (110 patients, randomized at single hospital).

Certifications

- BLS (Basic Life Support) — American Heart Association — renewed 2024
- ACLS (Advanced Cardiovascular Life Support) — AHA — Mar 2024
- IV Therapy Certification — Ukrainian Nurses Association — Feb 2024
- EHR Specialist (MIS-Health) — May 2024

Clinical Skills

Patient Care: vital signs interpretation, pain assessment (numeric + behavioral scales), wound care (clean + dirty wounds), drain management, post-op mobility protocols.

Procedures: IV cannulation (peripheral lines, 200+ procedures), Foley catheterization, NG tube insertion, wound dressing changes, basic suturing для minor lacerations.

Medications: parenteral medication administration (IV / IM / SC), narcotic administration (controlled substances logging), drug compatibility basics, insulin protocols.

Equipment: Philips MX450 patient monitors, Alaris IV pumps, basic ECG reading (12-lead familiar, telemetry monitoring daily).

EHR: MIS-Health (Ukrainian healthcare EHR, daily use), basic familiarity з Epic (training week у international hospital).

Documentation: SBAR handoff, nursing care plans, incident reporting, medication reconciliation.

Soft Skills: empathy, calm under pressure, family communication, attention to detail, multitasking on high-acuity shifts.

Не знаю / shallow знаю: mechanical ventilator management (theory only), vasopressor titration, dialysis nursing, advanced ICU equipment (CRRT, ECMO).

Languages

Ukrainian — native

English — B2 (Intermediate); читаю medical journals, comfortable in written communication, basic clinical conversation.

Target Roles

Registered Nurse — Surgical / ICU · Med-Surg RN · Nurse-Educator (junior) — preferred private hospitals чи multinational clinics у Kyiv area. Long-term: trauma ICU certification.
