

Dr. Mykhailo Honchar

Senior Cardiologist · MD · PhD candidate · 14 years

Lviv, Ukraine · part-time consulting available · m.honchar@example.com · researchgate.net/profile/mhonchar · linkedin.com/in/mhonchar

Summary

Senior Cardiologist з 14 роками клінічного досвіду + 8 роками research у interventional cardiology. Запад — Head of Catheterization Laboratory у Lviv Regional Cardiology Center, 800+ diagnostic angiographies per year, 180+ primary PCI for STEMI. Active research у дисертації PhD: "Optimization of antiplatelet therapy after complex PCI in patients with high bleeding risk". Author of 24 peer-reviewed publications + 2 book chapters.

Clinical Experience

Head of Catheterization Laboratory — Lviv Regional Cardiology Center

Jan 2020 — Present · Lviv · PRODUCTION

Tertiary-care cardiology hospital, 180+ beds. Cath lab team — 4 interventionalists, 6 nurses, 3 technologists. Department budget ~€2.1M.

- Direct supervision of 800+ diagnostic angiographies / 200+ percutaneous coronary interventions (PCI) annually.
- Established 24/7 primary PCI program для STEMI — door-to-balloon < 60 min у 89% cases (regional benchmark: 71%).
- Lead weekly heart team conferences (cardiology + cardiac surgery + radiology) — complex case decisions: CABG vs PCI, mechanical circulatory support, structural interventions.
- Trained 8 interventional cardiology fellows; 6 now hold senior positions in regional hospitals.
- Co-PI on 3 active clinical trials: post-PCI antiplatelet optimization, OCT-guided PCI, structural intervention registry.

Senior Cardiologist — Lviv City Cardiology Center

Sep 2014 — Dec 2019 · Lviv · PRODUCTION

Inpatient cardiology + outpatient consultations.

- Managed inpatient cardiology ward (32 beds, ACS / heart failure / arrhythmia).
- Outpatient consultations — 1500+ annually.
- Member of Lviv Regional STEMI Network — 24/7 on-call rotation для primary PCI.

Cardiology Fellow — Lviv Regional Cardiology Center

Sep 2011 — Aug 2014 · Lviv · INTERNSHIP

3-year cardiology fellowship after residency. Rotations: CCU, cath lab, electrophysiology, echocardiography, structural cardiology.

- Completed 240+ diagnostic angiographies + 80+ PCI under senior supervision.
- Echocardiography certification — 600+ studies (transthoracic + transesophageal).

Internal Medicine Residency — Lviv Regional Hospital

Sep 2008 — Aug 2011 · Lviv · INTERNSHIP

3-year internal medicine residency. Board certification — Internal Medicine, 2011.

Education

Danylo Halytsky Lviv National Medical University

PhD in Cardiology · 2014-present (defense scheduled Nov 2026). Dissertation: "Optimization of antiplatelet therapy after complex PCI".

MD (Specialist Diploma in General Medicine) · 2002–2008 · Completed.

Board Certifications

- Board Certification — Cardiology (Ukrainian Ministry of Health) — 2014, renewed 2024
- Board Certification — Internal Medicine — 2011

- European Association of Percutaneous Cardiovascular Interventions (EAPCI) Fellow — since 2019
- EAPCI Certification in Interventional Cardiology — 2017
- Echocardiography Certification — Ukrainian Society of Cardiology — 2013

Clinical Skills

Procedures: diagnostic coronary angiography (1500+ procedures), PCI (600+ including complex bifurcations, CTOs, left main), transradial / transfemoral access, IVUS / OCT-guided intervention, structural interventions (PFO closure, valve-in-valve TAVI assistance), pericardiocentesis, transvenous pacing.

Imaging: transthoracic echocardiography (advanced), transesophageal echo (basic), CT coronary angiography interpretation, OCT (advanced — 200+ cases).

Pharmacology: antiplatelet / anticoagulant therapy in ACS, heart failure pharmacotherapy, antiarrhythmic management.

Domain Knowledge: ACS pathophysiology, structural heart disease, mechanical circulatory support, advanced heart failure.

Research

Publications: 24 peer-reviewed articles (h-index 11 per Google Scholar), 2 book chapters (Ukrainian cardiology textbook, 2022 edition).

Recent first-author papers:

- "Bleeding risk stratification in elderly patients undergoing complex PCI" — European Heart Journal, 2024
- "Real-world outcomes of OCT-guided vs angiography-guided PCI in Ukrainian cohort" — JACC: Cardiovascular Interventions, 2023

Active grants: Ukrainian Ministry of Science (~€80k, 2024–2027) — antiplatelet optimization registry.

Conference talks: invited speaker EuroPCR 2023 (Paris), CCT 2024 (Kobe), Ukrainian Cardiology Congress (annual).

Teaching

Adjunct Assistant Professor of Cardiology — Danylo Halytskyi LNMU (2017–present). Lectures для 4th-year medical students + clinical supervision of 3rd-year residents.

Supervised 12 MD theses, 3 PhD students currently in active supervision.

Languages

Ukrainian — native

English — C1 (Advanced); peer-reviewed publications, international conference talks, distributed research collaboration 3 European partners.

Polish — B1 (working level for cross-border medical meetings with Polish colleagues).

Soft Skills

Multidisciplinary team leadership, mentorship of junior cardiologists, calm decisional thinking under emergent conditions (STEMI activations, cardiogenic shock), patient & family communication on complex diagnoses, research design and supervision.

Target Roles

Senior Cardiologist · Head of Cath Lab · Director of Cardiology Department · Academic Cardiologist (research + clinical).

NOT interested in: full-time outpatient-only positions, primarily administrative roles without clinical practice.
