

YAN KHADNEVICH

Junior Product Manager

Kyiv, Ukraine | +380 96 093 1351 | ykhadnevich@kse.org.ua | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Junior Product Manager with technical background in software development (.NET, React) and formal training in mobile product management. Strong foundation in market research, hypothesis validation, unit economics, and data-driven decision making. Seeking to leverage technical expertise and product thinking in building impactful mobile applications.

PRODUCT MANAGEMENT EXPERIENCE

AI Photo Enhancement App (Training Project) — Product Manager

Mobile Product Manager Training Course

- Conducted market research and competitive analysis for AI photo editing market, identifying gaps in full-photo enhancement solutions
- Formulated and prioritized 5 hypotheses using ICE framework with defined success metrics and validation criteria
- Designed MVP scope with feature prioritization and 8-week development roadmap
- Built financial model and calculated unit economics demonstrating positive ROI
- Defined analytics framework using Amplitude for event tracking and retention monitoring

FPV Drone Flight Controller Testing Platform — Product Manager

Genesis MVP Camp | 4-day intensive program

- Led product discovery for web platform automating FPV drone flight controller testing and validation
- Conducted market research to validate product demand in FPV drone controller testing market
- Developed Business Model Canvas and learned MVP methodology including customer discovery and rapid iteration

TECHNICAL EXPERIENCE

.NET Development Training — Student

EPAM University Program

- Completed advanced C# courses covering design patterns, application architecture, and ASP.NET Core
- Practiced Agile/Scrum methodology through hands-on projects and assignments

AcademicHub Platform — Full-Stack Developer

Team Project (4 members)

- Developed open-source learning platform in 4-person team using C# backend and React frontend
- Conducted market research and utilized GitHub Actions for CI/CD workflows

EDUCATION

Kyiv School of Economics

Bachelor of Science in Software Engineering and Business Analysis | 2021 – Present (4th year)

PROFESSIONAL TRAINING

- **Mobile Product Manager Course** — Market research, hypothesis validation, MVP development, unit economics, mobile monetization
- **Genesis MVP Camp** — MVP methodology, customer discovery, Business Model Canvas
- **EPAM .NET Training** — Advanced C#, design patterns, ASP.NET Core

SKILLS

Product Management

- Market research & competitive analysis
- Hypothesis formulation & validation
- Feature prioritization (ICE framework)
- MVP scope definition & roadmapping
- Unit economics (LTV/CAC, retention)
- Mobile monetization strategies

Analytics & Data

- Amplitude (event tracking, funnels)
- Financial modeling
- SQL for data analysis
- Excel/Google Sheets (advanced)

Technical Skills

- C# (.NET Core, ASP.NET, EF Core)
- JavaScript, TypeScript, React
- SQL & NoSQL databases
- REST API understanding
- Git, GitHub Actions
- Docker, AWS basics

Soft Skills

- Analytical thinking
- Data-driven decision making
- Technical communication
- Cross-functional collaboration
- Quick learner & adaptable

Languages: English (B2), Ukrainian (Native)
